Spotlight: i-mop

Meet the i-mop XL. It is a unique new take on an automatic scrubber for small facilities.

The i-mop's balanced weight distribution and twin counter-rotating brushes remove more surface soil than traditional mop and bucket "cleaning". Increased cleanliness creates a more inviting facility for occupants and visitors.

It provides increased productivity rates over manual mopping, in addition to reducing chemical and water usage with its patented Fluid Management Systems. Utilizing i-mop XL's special Fluid Control technologies, the machine maximizes every ounce of water and chemical.

Want to see the i-mop XL in action? Visit:

Spotlight: Airx 82

Spring is on our doorstep, and the snow is beginning to melt. It is time to revive those winter-soiled mats and carpets.

Airx 82 cleans better and dries faster than competitive products, and it resists resoiling. It can be used in an extractor for regular cleaning, or in can be used in bonnet cleaning for low moisture cleaning, or rotary shampooing for restorative level cleaning.

Spotlight: PRG

Great news! The latest Product Reference Guide is out. The guide lists a selection of our best selling products, as well as provides handy reference materials to make your life a little easier. Make sure to ask your consultant for one, or pick one up the next time you visit a store.
