Technology

What goes into our EV Red Rock to make it so environmentally friendly? Actually, the question should be, what DON'T we put in? Our product has:

- * No butyls
- * No chlorinates
- * No halogens
- * No petroleum distillates/solvents
- * No nonylphenol ethoxylates (NPE) compounds
- * No alkylphenol ethoxylate (APE) compounds
- * No VOCs
- * No hazardous fumes or toxins present
- * No special safety equipment required
- * Non-carcinogenic
- * Non-corrosive
- * Not regulated by TDG Act
- * No phosphates
- * Non-flammable
- * No distillates

Red Rock is also:

- * Biodegradable
- * Water based
- * Neutral pH

ECOLOGO certifications tell the story of a product's environmental performance throughout its lifecycle, enabling purchasers to identify holistically greener products and meet their sustainability goals. These voluntary, multi-attribute, lifecycle-based environmental certifications indicate that a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.
