Technology

What goes into our EV Sunrise to make it so environmentally friendly? Actually, the question should be, what DON'T we put in? Our product has:

- * Non-corrosive*
- * Non-toxic*
- * Non-carcinogenic
- * No aromatic solvents
- * No perfumes or added scents
- * No dyes
- * No halogenated solvents
- * No phosphates or other harmful builders
- * No alkylphenol ethoxylate (APE) compounds
- * Low volatile organic compounds (VOC)
- * No methoxyethanol, ethoxyethanol, butoxyethanol, or propoxyethanol
- *when diluted at the recommended dilution rate

Sunrise is also:

- * Biodegradable

ECOLOGO certifications tell the story of a product's environmental performance throughout its lifecycle, enabling purchasers to identify holistically greener products and meet their sustainability goals. These voluntary, multi-attribute, lifecycle-based environmental certifications indicate that a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.
