AIRx81

PRESPRAY DEODORIZING CARPET CLEANER

AIRX 81 is a specially formulated rug pre-spray to loosen soil and stains prior to extraction or deep steam cleaning with AIRX 80 carpet cleaner.

Like its companion product, AIRX 81 contains Airicide™, a unique odor neutralizing additive that stops odors and prevents "mustiness" after cleaning.

AIRX 81 can be used as an occasional spotter too, for those accidental spills and stains that occur in between cleanings.

AIRX 81 contains special alkaline builders selected for their mild yet effective dirt dissolving action. Wetting agents and penetrants promote a deep-down soil loosening and suspension that leaves an easy job for the extraction unit. Heavy traffic areas in hallways, around doors and entrances, desks, and in food service areas are ideal locations for the use of AIRX 81.

AIRX 81 was designed to be compatible with and enhance the action of AIRX 80.

DESCRIPTION

A water based concentrated liquid alkaline detergent designed to pre-clean and deodorize heavily soiled carpets prior to extraction or deep steam cleaning. Contains builders, detergents, water softeners, solvents, odor counteractant and optical brightener.

USES

For all washable, synthetic fibre carpeting in high traffic or heavily soiled areas; hallways, doorways, desk areas, etc. Use prior to extraction cleaning with AIRX 80. Also may be used for spotting or clean up of spills.

FEATURES

MILD - AIRX 81 contains no harsh alkali to damage carpet fibre.

PENETRATING - Greasy residues are most difficult to remove from fabric. They also tend to hold other soils to the fibre. AIRX 81 penetrates and releases the grease promoting easier soil removal.

OPTICAL BRIGHTENER - A specially selected optical brightener helps promote a "renewed" appearance.

AIRICIDE - AIRX Airicide is a true odor counteractant. It eliminates odors by changing the odor molecules rather than masking with heavy perfumes. Leaves behind a fresh odor which remains for several days.

ECONOMICAL - Many spotter solutions are composed of expensive chlorinated hydrocarbons or solvents. In addition to being costly, they are odorous and, in some cases, toxic. AIRX 81 provides a low cost and safe solution to cleanup of soiled carpet areas.

DIRECTIONS

1. Vacuum carpet thoroughly before cleaning.

2. Dilute AIRX 81 with 4 parts warm water.

3. Spray solution onto soiled areas using trigger sprayer or garden type sprayer if areas are large.

4. Clean total area with AIRX 80 using extraction or deep steam cleaning process.

5. Allow carpet to dry, then vacuum thoroughly to remove dry residues.

NOTES:

1. Test for color fastness before use. Apply dilute spotter to small out of the way area of carpet, then rub with clean white cloth. If color transfers to cloth or changes, a water based product should not be used.

2. Overwetting of carpet can cause shrinking. Manufacturer assumes no liability for over wetting.

AIRX81

PRESPRAY DEODORIZING CARPET CLEANER

SPECIFICATIONS

CONTAINS: Detergents, sequestrants, solvents and wetting agents for cleaning and degreasing.
CONTAINS: AIRX Airicide™ for odor control and removal.

DILUTION	1 part with 4 parts water
pH CONCENTRATE	11.0 ± 0.5
pH USE DILUTION	10.5 ± 0.5
ODOR	Airicide
TYPE DETERGENT	anionic, nonionic
FLASH POINT	87ºC (TCC)
SOLUBILITY IN HARD WATER	complete
COLOR	straw yellow
FREEZE/THAW STABILITY	passes 3 cycles
SHELF LIFE	one year minimum
REFRACTIVE INDEX	14.6 brix
SPECIFIC GRAVITY	1.015 ± 0.005
NON-VOLATILE	7.15 ± 0.5
