

W.E. GREER LTD.

Fuel Surcharge Information

April 16th, 2018

Dear Valued Customer,

Subject: W.E. Greer Fuel Surcharge

Thank you for choosing W.E. Greer Ltd. For your cleaning equipment and supply needs.

We have prepared this letter to answer questions you may have about our surcharge (fuel surcharge).

A fuel surcharge takes into account the amount paid by organizations to move freight. W.E. Greer is impacted by the significant variation in fuel prices and introduced a minimal \$5 fuel surcharge in 2011 to account for this. The surcharge is shown as a separate entry on invoices and is not added to invoices for back order, or orders picked up by the customers. The surcharge represents a very small component of the total freight cost. W.E. Greer will continually review the surcharge policy to ensure its accuracy.

Please do not hesitate to contact your W.E. Greer Ltd. Representative should you have any questions related to the surcharge.

We sincerely appreciate your business and strive to meet or exceed your expectations with excellent products and service.

Sincerely,

John Greer
President
