### Technology

What goes into our EV Red Rock to make it so environmentally friendly? Actually, the question should be, what DON'T we put in? Our product has:

- \* No butyls
- \* No chlorinates
- \* No halogens
- \* No petroleum distillates/solvents
- \* No nonylphenol ethoxylates (NPE) compounds
- \* No alkylphenol ethoxylate (APE) compounds
- \* No VOCs
- \* No hazardous fumes or toxins present
- \* No special safety equipment required
- \* Non-carcinogenic
- \* Non-corrosive
- \* Not regulated by TDG Act
- \* No phosphates
- \* Non-flammable
- \* No distillates

### Red Rock is also:

- \* Biodegradable
- \* Water based
- \* Neutral pH

ECOLOGO certifications tell the story of a product's environmental performance throughout its lifecycle, enabling purchasers to identify holistically greener products and meet their sustainability goals. These voluntary, multi-attribute, lifecycle-based environmental certifications indicate that a product has undergone rigorous scientific testing, exhaustive auditing, or both, to prove its compliance with stringent, third-party, environmental performance standards.
